

Strength in numbers...

THE

MUNICIPAL

POOL

The Municipal Pool was formed in 1955 to specifically serve the needs of our small and medium sized clients. **Ochs, Inc.** has over 65 years of experience in the public sector and is proud to be **the exclusive administrator of the Municipal Pool!**

The Municipal Pool brings separate small and medium sized municipal groups together to form one large group able to leverage greater purchasing power. When municipalities buy from The Municipal Pool they can pay significantly lower premiums than they could negotiate on their own.

The Municipal Pool includes over 280 public entities encompassing cities, townships, counties, utilities, hospitals, school districts and others serving over 30,000 employees. The Municipal Pool's group buying power provides affordable coverage for employees and their families.

The Municipal Pool insurance carriers rank among the most highly rated institutions in America and offer premium discounts with enhanced contract provisions to participants.
