

Employers face continuously changing employment laws, benefits regulations, ongoing employee issues, as well as potentially costly cyber and privacy risks.

The Ochs Resource Center is provided at no additional cost and available to help with these challenges. Clients have access to unlimited professional support, **saving thousands of dollars.**

= Tens of thousands of dollars
IN ANNUAL EMPLOYER VALUE

How does the Ochs Resource Center work?

Employers are provided easy access to valuable tools and services, including:

- + Direct access to HR and Benefit Lawyers and Cyber Professionals to receive confidential, documented responses to your organization's specific questions
- + Live and recorded webinars on health plan compliance, risk management and cyber security, many with CE credits for HR personnel
- + Expert guidance to help understand cyber risks and to develop a custom action plan
- + Vetted resources available for ongoing and additional cyber protection and breach support
- + A state-specific employee handbook, building tool, online training courses, and a wellness program benchmarking tool
- + Proactive regulatory updates based on each user's selected preferences
- + A simple assessment to identify an organization's risks along with the immediate steps to take to address them
- + Free employee phishing testing to help employees understand risks
- + PlanTraQ (SM) tool to help track key compliance requirements
